Rules of the Game

Some Systems of Substitution Correlations in Modern American English

The Grammar Review Book

LINGUISTICS FOR EVERYONE: AN INTRODUCTION, Second Edition, will capture the interest of all students, regardless of major, and offer them a thorough, engaging introduction to the science of language. To achieve this goal, the authors devised a unique arrangement of chapters that distinguishes this book from conventional introductory linguistics textbooks. Without sacrificing rigor, the authors focus on larger themes rather than on technical details or formal analysis. The book opens with a strong introductory chapter addressing basics such as how to define language, prescriptive versus descriptive grammar, differences between the human language system and other animal communication systems, and so on. The second chapter, devoted to language, mind, and brain, addresses both psycholinguistic and neurolinguistic evidence for humans’ innate capacity for language. To address core linguistics areas in depth, there are two chapters each on phonetics and phonology, morphology, syntax, and semantics. Throughout the text, special features relate the study of linguistics to the language we use in the real world and every chapter includes innovative and varied activities that review and practice the content and offer your students many opportunities to apply the knowledge in their own lives. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

From Words to Grammar

Film & Video Finder

Offers elementary teachers advice and strategies to help them teach, apply, and understand English grammar while still adhering to state and school standards.

English Traditional Grammars

North American short stories enhance students’ reading skills, language learning, and enjoyment of literature. Discovering Fiction, Second Edition, Student’s Book 1 presents stories with universal appeal to engage students and make them think critically. Among the authors included are O. Henry, William Saroyan, Gwendolyn Brooks, Isaac Asimov, and Sandra Cisneros. Extensive pre-reading activities capture students’ interest. Post-reading activities check their comprehension, increase their knowledge of grammar and vocabulary, and provide thought-provoking discussion and writing assignments. Literary term explanations and tasks enhance students’ appreciation of literature. In addition, Quests take students beyond the reading to expand their knowledge of the topic while building Internet reading skills.

Brehe’s Grammar Anatomy

Learning Directory

English Accents and Dialects is an essential guide to contemporary social and regional varieties of English spoken in the British Isles today. Together with invaluable overviews of numerous regional accents and dialects, this fifth edition provides a detailed description of key features of Received Pronunciation (RP) as well as several major non-standard varieties of English. Key features: main regional differences are followed by a survey of speech in over 20 areas of the UK and Ireland, audio samples of which are available to download at www.routledge.com/cw/hughes recent findings on London English, Aberdeen English and Liverpool English contains new entries on Hull, Manchester, Carlisle, Middlesbrough, Southampton, London West Indian, Lancashire and the Shetlands additional exercises with answers online accompany the new varieties clear maps throughout for locating particular accents and dialects. This combination of reference manual and practical guide makes this fifth edition of English Accents and Dialects a highly useful resource providing a comprehensive and contemporary coverage of speech in the UK and Ireland today.

Discovering Fiction Level 1 Student’s Book

The new edition of this innovative text employs insights from contemporary linguistic theories but builds them into a practical and coherent system that stays firmly rooted within traditional models. Its down-to-earth explanations about how language works are illustrated at every step with diagrams and other visual models. The examples and exercises consist of provocative and intelligent exercises, not detached grammar-book examples. Each chapter includes a series of analysis exercises with fifty problems. Answers are provided for ten sentences per chapter. A new chapter on how grammar functions in literature and how it is used to improve writing extends the applications of Doing Grammar in this second edition, which also includes new introductory chapter outlines and thoroughly revised chapter summaries. The new edition was class tested for over a year. Every page has been rethought and redefined to make grammatical analysis clear, understandable, useful, and interesting. It will be an invaluable guide for students in introductory and advanced grammar and composition courses and for all readers seeking to discover how language works.

Paperbound Books in Print
How do you ensure your students have a full understanding of grammar use, meaning, and form? Using an inquiry-based approach to learning, Oxford Discover develops the communication skills and thinking skills students need for success in the 21st century. Who are your family and friends? Where can we see colors? How can we make music? Oxford Discover uses Big Questions such as these to tap into students' natural curiosity. It enables them to ask their own questions, find their own answers, and explore the world around them. This approach to language learning and literacy, supported by a controlled grammar and skills syllabus, helps students achieve near-native fluency in English. Oxford Discover gives teachers the tools to develop children's 21st century skills, creating young thinkers with great futures. Use with Show and Tell as part of a 9-level course.

**Writing, Reading, and Research**

Understanding the structure of language is the key to better communication, but for many people, the boring basics of grammar seem tedious and unbearable. But in Veit's unique fashion of introducing grammar as a process of discovery, the author takes his readers on an inductive search for the structure of language. Taking a transformational approach to grammar, this book provides broad, thorough coverage of English grammatical structures, offering a current, enjoyable approach to language learning and communication. By minimizing technical terms, Veit invites those with no prior training in syntax to explore the whole range of English constructions, from simpler to more complex topics, allowing readers to inductively discover the structure of the English language for themselves.

**Doing English Grammar**

Improve the writing and speaking skills you use everyday. Graceless with grammar? Perplexed by punctuation? Have no fear! **American Book Publishing Record**

**Discovering English Grammar**

**Grammar Alive!**

An engaging and fresh take on the rules and politics of English grammar, written in lively prose. It goes a step further than most books on grammar by providing an overview of the field, with a discussion of historical and current debates about grammar, and how we define, discuss, and approach it. Presents a novel, inquiry-based
approach to understanding speakers' unconscious knowledge of English grammar Makes lucid connections, when relevant, with current linguistic theory Integrates language change and variation into the study of grammar Examines historical sources of socially evaluative perceptions of grammar, as 'good' or 'bad', and notions of language authority Provides syntactic explanations for many modern punctuation rules Explores some of the current controversies about grammar teaching in school and the role of Standard English in testing and assessment

Syntactic Structures

Updated and revised with more examples and expanded discussions, this second edition continues the aim of providing teachers with a solid understanding of the use and function of grammatical structures in American English. The book avoids jargon and presents essential grammatical structures clearly and concisely. Dr. DeCapua approaches grammar from a descriptive rather than a prescriptive standpoint, discussing differences between formal and informal language, and spoken and written English. The text draws examples from a wide variety of authentic materials to illustrate grammatical concepts. The many activities throughout the book engage users in exploring the different elements of grammar and in considering how these elements work together to form meaning. Users are encouraged to tap into their own, often subconscious, knowledge of grammar to consciously apply their knowledge to their own varied teaching settings. The text also emphasizes the importance of understanding grammar from the perspective of English language learners, an approach that allows teachers to better appreciate the difficulties these learners face. Specific areas of difficulties for learners of English are highlighted throughout.

The Cumulative Book Index

By combining theory and practice, this book provides a comprehensive overview of the whole process of English grammar teaching.

Use with Show and Tell 2nd edition to teach an inquiry-based course from Kindergarten through Primary.

Doing Grammar

From Words to Grammar is a different introduction to grammar for students. Taking a word-based approach to grammar, this innovative book introduces the subject through the analysis of over a hundred of the most commonly used English words. Each unit focuses on a different word class, using an analysis of specific words which introduce the grammatical element of each: examples of real world usage featuring that word; exercises with answers. This unique approach not only introduces students to grammar but also provides them with an understanding of how grammar works in everyday English. Written by an experienced teacher and author, From Words to Grammar is ideal for all students of English Language.

Instructor's Edition for Veit/Gould's Writing, Reading, and Research

Until recently grammars of English have received surprisingly little scholarly attention, while a lot of research is done on dictionaries. It appears, however, that learners of English shy away from modern grammars and prefer to consult dictionaries or traditional reference grammars instead. This raises questions as to the relationship between theoretical linguistics and grammar writing and calls for more research into this area, especially for the period from 1800 onwards, which was crucial for the development of grammatical thinking and its acceptance (or rejection) at all educational levels today. This volume brings together work from international experts on the historiography of English grammar writing who deal with a variety of topics grouped into three overlapping sections: I. Native Grammars of English, II. Non-native Grammars of English, and III. Grammatical Analyses. The volume includes summaries of the articles and a name index.
